Human Ability & Performance

Mental Clarity

MMF delivers micronutrients to all the body systems. This includes the brain and central nervous systems. By providing the essential nutrients needed MMF supports and protects these vital systems giving you the mental edge you need.

Human Ability & Performance

Physical Performance

Physical activity is powered by delivering energy to muscle cells. Micronutrients play a key role in this process. MMF has been tested at the Military's Mountain Warfare Center and was proven to help soldiers be faster and stronger longer.

Human Ability & Performance

Immune Function

MMF has been proven to help protect DNA and facilitate its natural repair, reduce oxidative stress and reduce inflammation. All of this results in unparalleled immune function. When your immune system is at its peak you are at your peak.

Human Ability & Performance

Recovery

MMF has been shown to reduce the effects of stress on the body. This means that you can get back at it that much faster. Whatever your “it” is. By recovering faster from the stress of everyday life or extensive physical exertion you can enjoy all that life has to offer, more often.

The Next Level

Making the best better.

The DoD initiated a ground breaking project: Could natural supplementation be used to elevate the abilities and performance of our Marines, Airmen, Sailors & Soldiers to a peak state and then maintain it despite battlefield conditions?
